Mirion Technologies Launches New Corporate Website

SAN FRANCISCO--(BUSINESS WIRE)--

Mirion Technologies, the leading global provider of radiation detection, measurement, and analysis solutions, today unveiled its new website at www.mirion.com. The new Mirion website showcases the Company's divisions and key brands, and features advanced product search capabilities.

The new website is organized around Mirion's five operating divisions:

- Health Physics: Active and Passive Dosimeters, Contamination and Clearance Monitors, Radiation Survey Meters, and Biochemical Identifiers. Key brands include MGP Instruments and RADOS.
- Radiation Monitoring Systems: Process Monitors, Post-Event Monitors, and Area Monitors. Key brands include MGP Instruments and MGPI H-B.
- Sensing Systems: Electrical Penetrations, and Neutron Flux Detectors. Key brands include Conax, Auxitrol Nuclear, and Imaging & Sensing Technology (IST).
- Dosimetry Services: Dosimetry Services and Consulting. Key brand is Global Dosimetry Solutions (GDS).
- Imaging Systems: Radiation Tolerant Cameras, Pyrometers and Spyrometers. Key brands include Rees, Quadtek, and Imaging & Sensing Technology (IST).

"A major goal of the redesign was to enable customers to easily obtain information on the wide range of products and services available from Mirion," said Thomas Logan, Chief Executive Officer of Mirion Technologies. "The new website showcases our comprehensive capabilities in the nuclear power, military, homeland security, medical and industrial markets."

Enhancements to the website include:

- Improved Navigation -- The streamlined website design will enable visitors to obtain the desired information with fewer clicks.
- Enhanced Product Search -- Visitors can search for products by any combination of industry, division, or product category. Visitors may also search by entering a search query in a free text search box.
- Knowledge Center -- A repository for industry white papers and links to radiation industry associations.

ABOUT MIRION TECHNOLOGIES

Mirion Technologies is one of the world leaders in radiation detection, measuring and monitoring. Mirion has 14 facilities in Europe, Asia, and North America. Mirion Technologies is headquartered in the San Francisco Bay area and is a portfolio company of American Capital (NASDAQ:ACAS).
