Title: Chief Financial Officer

Mirion Announces Second Quarter 2025 Financial Results and Updates Full Year Guidance

- Revenue for the second quarter increased 7.6% to \$222.9 million, compared to \$207.1 million in the same period in 2024.
- GAAP net income was \$8.5 million in the second quarter; compared to a GAAP net loss of \$12.0 million in the same period in 2024; a 171% improvement. Adjusted EBITDA was \$51.2 million in the second quarter; a 4.9% increase from \$48.8 million in the same period in 2024.
- GAAP net earnings per share in the second quarter was \$0.04, compared to a GAAP net loss per share of \$0.06 in the same period in 2024. Adjusted earnings per share for the quarter was \$0.11, compared to \$0.10 in the same period in 2024.
- The company raised guidance for total Revenue growth, Adjusted EBITDA, Adjusted Free Cash Flow, and Adjusted EPS and revised Organic Revenue growth guidance for the fiscal year ending December 31, 2025, including estimated tariff impacts based on today's levels, net of mitigating actions and updated full year foreign exchange rates.

Atlanta, GA – July 31, 2025 – Mirion (“we” or the “company”) (NYSE: MIR), a global provider of radiation detection, measurement, analysis, and monitoring solutions to the nuclear, medical, defense, and research end markets, today announced results for the second quarter ended June 30, 2025.

“Our second quarter results demonstrate continued progress towards key 2025 financial targets and positively position us to capture robust market dynamics,” commented Mirion’s Chairman and Chief Executive Officer Thomas Logan. “Nuclear power and cancer care tailwinds remain vibrant and Mirion is better positioned than ever to capitalize on these favorable market trends. We improved our strategic positioning and operating performance while successfully minimizing our tariff exposure to date.”

Logan continued, “Meanwhile, we continue to strategically improve our business. In the second quarter, we successfully completed a \$400 million convertible notes offering and refinanced our Term Loan B to further optimize our capital structure. Additionally, we announced the acquisition of Certec to expand our services and software offerings. Certec complements our existing nuclear power product suite while creating additional opportunities in the broader energy power markets. Together with Certec, Mirion is a leading supplier to the nuclear power renaissance underway.”

2025 Guidance

Commenting on Mirion’s full year 2025 guidance, Logan said, “Our first half performance, foreign exchange tailwinds, and visibility for the remainder of the year give us the confidence to increase key components of our annual guidance. Notably, capital structure enhancements contributed to our increased Adjusted Free Cash Flow and Adjusted EPS guidance.”

Mirion has increased its 2025 total Revenue growth, Adjusted EBITDA (while tightening the corresponding Adjusted EBITDA margin range), Adjusted Free Cash Flow, and Adjusted EPS guidance while revising Organic Revenue growth guidance for the fiscal year ending December 31, 2025, including estimated tariff impacts based on today’s levels, net of mitigating actions and updated full year foreign exchange rates.

- **Revenue growth** of approximately 7.0% – 9.0% (previously 5.0% – 7.0%); includes a foreign exchange rate tailwind of approximately 125 basis points using a Euro-to-USD exchange rate of 1.15 and acquisitions-related tailwind of approximately 100 basis points.

News Release

- **Organic Revenue growth** of approximately 5.0% – 7.0% (previously 5.5% – 7.5%); includes increased Nuclear Power end-market expected growth which is more than offset by reductions to Labs & Research and Dosimetry Services end-markets expectations
- **Adjusted EBITDA** of approximately \$223 million – \$233 million (previously \$215 million - \$230 million); Adjusted EBITDA margin of approximately 24.0% – 25.0% (previously 24.0% – 25.5%).
- **Adjusted Free Cash Flow** of approximately \$95 million – \$115 million (previously \$85 million - \$110 million); Adjusted Free Cash Flow Conversion of approximately 43% – 49% of Adjusted EBITDA (previously 39% – 48%).
- **Adjusted EPS** of approximately \$0.48 – \$0.52 per share (previously \$0.45 – \$0.50 per share).

Additional modeling and guidance assumptions are included on slide 20 in the earnings presentation on the Company's investor relations page.

The Company's guidance contains forward-looking statements and actual results may differ materially as a result of known and unknown uncertainties and risks, including those set forth below under the heading "Forward-Looking Statements." In addition, forward-looking non-GAAP financial measures are presented on a non-GAAP basis without reconciliations of such forward-looking non-GAAP measures due to the inherent difficulty in projecting and quantifying the various adjusting items necessary for such reconciliations, such as stock-based compensation expense, amortization and depreciation expense, merger and acquisition activity and purchase accounting adjustments, that have not yet occurred, are out of Mirion's control, or cannot be reasonably predicted. Accordingly, reconciliations of our guidance for organic revenue growth, adjusted EBITDA, adjusted EBITDA margin, adjusted EPS, adjusted free cash flow and adjusted free cash flow conversion are not available without unreasonable effort.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Words such as “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “hope”, “intend”, “may”, “might”, “plan”, “possible”, “potential”, “predict”, “project”, “should”, “strive”, “seeks”, “plans”, “would”, “will”, “understand” and similar words are intended to identify forward looking statements, but the absence of these words does not mean that a statement is not forward looking. These forward-looking statements include but are not limited to, statements regarding our future operating results, financial position and guidance, our backlog and order potential, our business strategy and plans, our objectives for future operations, macroeconomic trends, including the impact of tariffs and global trade relations, trends in cancer care, nuclear power and small modular reactor, foreign exchange, interest rate and inflation expectations and any future mergers, acquisitions, divestitures and strategic investments, including the completion and integration of previously completed transactions. There are a significant number of factors that could cause actual results to differ materially from statements made in this press release, including changes in domestic and foreign business, market, economic, financial, political and legal conditions, including related to matters affecting Russia, the relationship between the United States and China, conflict in the Middle East, tariffs or other trade and supply chain disruptions, and risks of slowing economic growth or economic recession in the United States and globally; developments in the government budgets (defense and non-defense) in the United States and other countries, including budget reductions, sequestration, implementation of spending limits or changes in budgetary priorities, delays in the government budget process, a U.S. government shutdown or the U.S. government’s failure to raise the debt ceiling; risks related to the public’s perception of nuclear radiation and nuclear technologies; risks related to the continued growth of our end markets; our ability to win new customers and retain existing customers; our ability to realize sales expected from our backlog of orders and contracts; risks related to governmental contracts; our ability to mitigate risks associated with long-term fixed price contracts, including risks related to inflation; risks related to information technology system failures or other disruptions or cybersecurity, data security or other security threats; risks related to the implementation and enhancement of information systems; our ability to manage our supply chain or difficulties with third-party manufacturers; risks related to competition; our ability to manage disruptions of, or changes in, our independent sales representatives, distributors and original equipment manufacturers; our ability to realize the expected benefit from strategic transactions, such as acquisitions, divestitures, investments and partnerships, including any synergies, or internal restructuring and improvement efforts; our ability to issue debt, equity or equity-linked securities in the future; risks related to changes in tax law and ongoing tax audits; risks related to future legislation and regulation both in the United States and abroad; risks related to the costs or liabilities associated with product liability claims; risks related to the uncertainty of legal claims, litigation, arbitration and similar proceedings; our ability to attract, train and retain key members of our leadership team and other qualified personnel; risks related to the adequacy of our insurance coverage; risks related to the global scope of our operations, including operations in international and emerging markets; risks related to our exposure to fluctuations in foreign currency exchange rates, interest rates and inflation, including the impact on our debt service costs; our ability to comply with various laws and regulations and the costs associated with legal compliance; risks related to the outcome of any litigation, government and regulatory proceedings, investigations and inquiries; risks related to our ability to protect or enforce our proprietary rights on which our business depends or third-party intellectual property infringement claims; liabilities associated with environmental, health and safety matters; our ability to predict our future operational results; and the effects of health epidemics, pandemics and similar outbreaks may have on our business, results of operations or financial condition. Further information on risks, uncertainties and other factors that could affect our financial results are included in the filings we make with the United States Securities and Exchange Commission (the “SEC”) from time to time, including our Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q and other periodic reports filed or to be filed with the SEC.

You should not rely on these forward-looking statements, as actual outcomes and results may differ materially from those contemplated by these forward-looking statements as a result of such risks and uncertainties. All forward-looking statements in this press release are based on information available to us as of the date hereof, and we do not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

Use of Non-GAAP Financial Information

In addition to our results determined in accordance with GAAP, we believe that the presentation of non-GAAP financial information provides important supplemental information to management and investors regarding financial and business trends relating to our financial condition and results of operations. For further information regarding these non-GAAP measures, including the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures, please refer to the financial tables below, as well as the “Reconciliation of Non-GAAP Financial Measures” section of this press release. Non-GAAP financial information is not a substitute for GAAP financial information and undue reliance should not be placed on such non-GAAP financial information. In addition, similarly titled items used by other companies may not be comparable due to variations in how they are calculated and how terms are defined.

Reconciliation of Non-GAAP Financial Measures

In addition to our results determined in accordance with GAAP, we believe the following non-GAAP measures are useful in evaluating our operating performance. We use the following non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides consistency and comparability with past financial performance. However, non-GAAP financial information is presented for supplemental informational purposes only, has limitations as an analytical tool, and should not be considered in isolation or as a substitute for financial information presented in accordance with GAAP. Other companies, including companies in our industry, may calculate similarly titled non-GAAP measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison.

Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures and not rely on any single financial measure to evaluate our business.

Organic revenue is defined as Revenue excluding the impact of foreign exchange rates as well as mergers, acquisitions and divestitures in the period.

Adjusted EBITDA is defined as net income before interest expense, income tax expense, depreciation and amortization adjusted to remove the impact of foreign currency gains and losses, amortization of acquired intangible assets, changes in the fair value of warrants, certain non-operating expenses (restructuring and costs to achieve operational synergies, merger, acquisition and divestiture expenses and IT project implementation expenses), stock-based compensation expense, debt extinguishment and income tax impacts of these adjustments.

Adjusted EBITDA margin is defined as Adjusted EBITDA divided by Revenue.

Adjusted net income is defined as GAAP net income adjusted for foreign currency gains and losses, amortization of acquired intangible assets, changes in the fair value of warrants, certain non-operating expenses (restructuring and costs to achieve operational synergies, merger, acquisition and divestiture expenses and IT project implementation expenses), stock-based compensation expense, debt extinguishment and income tax impacts of these adjustments.

Adjusted EPS is defined as adjusted net income divided by weighted average common shares outstanding — basic and diluted.

Adjusted free cash flow is defined as free cash flow adjusted to include the impact of cash used to fund non-operating expenses. We believe that the inclusion of supplementary adjustments to free cash flow applied in presenting adjusted free cash flow is appropriate to provide additional information to investors about our cash flows that management utilizes on an ongoing basis to assess our ability to generate cash for use in acquisitions and other investing and financing activities.

Adjusted free cash flow conversion is defined as adjusted free cash flow divided by adjusted EBITDA.

Free cash flow is defined as U.S. GAAP net cash provided by operating activities adjusted to include the impact of purchases of property, plant, and equipment, purchases of badges and proceeds from derivative contracts.

Net leverage is defined as Net Debt (debt minus cash and cash equivalents) divided by Adjusted EBITDA plus contributions to Adjusted EBITDA if acquisitions made during the applicable period had been made before the start of the applicable period.

Operating Metrics

Order and orders growth are defined as the amount of revenue earned in a given period and estimated to be earned in future periods from contracts entered into in a given period as compared with such amount for a prior period. Foreign exchange rates are based on the applicable rates as reported for the time period.

The following tables present reconciliations of certain non-GAAP financial measures for the applicable periods.
